MIT Press Ltd, United States, 2005. Hardback. Book Condition: New. New.. 231 x 155 mm. Language: English . Brand New Book. In this book, Norman Cantor analyzes the legal and moral status of people with profound mental disabilities -- those with extreme cognitive impairments that prevent their exercise of medical self-determination. He proposes a legal and moral framework for surrogate medical decision making on their behalf. The issues Cantor explores will be of interest to professionals in law, medicine, psychology, philosophy, and ethics, as well as to parents, guardians, and health care providers who face perplexing issues in the context of surrogate medical decision making. Surrogates may even, consistent with the intrinsic human dignity standard, sometimes authorize tissue donation or participation in nontherapeutic medical research by profoundly disabled persons. Intrinsic human dignity limits the occasions for such decisions and dictates close attention to the preferences and feelings of the profoundly disabled persons themselves. Cantor also analyzes the underlying philosophical rationale that makes these decision-making criteria consistent with...
