Springer. Paperback. Book Condition: New. Paperback. 964 pages. Dimensions: 9.6in. x 6.7in. x 1.9in. The European Federation for Medical Informatics is a regional coordinating body. The Congress in Dublin, MIE 82, from 21st to 25th March 1982, is the fourth in the series following MIE 78 in Cambridge, MIE 79 in Berlin. There was a break in 1980 for the World Congress - MEDINFO 8- in Tokyo. This was followed by MIE 81 in Toulouse. The rationale behind these congresses is the scientific need to share results and ideas, and the educational need to train a wide variety of professional staff in the potential of Medical Informatics in health care delivery. All the caring professions are involved: doctors, scientists, nurses, pharmacists, paramedical staff, administrators, health care planners, community physicians, medical educationalists, epidemiologists, statisticians, operations analysts, together with specialists from the computing profession dealing with systems analysis, hardware, software, languages, databases, and marketing of systems. The pre-publication of conference proceedings from a multi-stream conference is particularly valuable in a rapidly expanding multidisciplinary field such as Medical Informatics. It enables participants to follow work presented at sessions that they are unable to attend...
