Accountability Office, 2008 OCLC Number: (OCoLC)244250417 Subject: Indians of North America -- Health and hygiene -- United States -- States -- Finance. Excerpt: . . . aged or disabled. Generally, the federal government and the states share in the cost of the Medicaid program. However, the federal government pays 100 percent of the Medicaid programs cost to provide services to American Indians and Alaska Natives at IHS-or tribally operated facilities. In fiscal year 2007, Congress appropriated approximately 3. 2 billion for IHS Funding IHS, which included funding for the provision of direct care at IHS-funded facilities, contract health services, and other functions. In addition to IHSs federal appropriation, IHS-funded facilities can be reimbursed by other payers, including Medicare and Medicaid, for the services the facilities 21 provide. IHS-funded facilities are allowed to retain reimbursements without an offsetting reduction in their IHS funding. Thus, revenues from Medicare and Medicaid can increase the financial capacity of IHS-funded facilities to provide needed medical services. According to IHS data, the amount of Medicaid and Medicare reimbursement that IHS has collected has increased over time ( see fig. 1 ). In fiscal year 2007, IHS reported approximately 516 million in Medicaid reimbursement and 161 million in Medicare reimbursement, for a total of 677 million. These data do not account for all collections by IHS-funded facilities because tribally operated facilities are not required to report such information. 21 IHS has had the authority to bill Medicare and Medicaid since 1976.
