COMMON FEEDS AND FODDER CROPS OF FARM ANIMALS IN INDIA

Book Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | The feeds and fodders for livestock are classified as roughages and concentrates, dry and fresh, as well as conventional and unconventional. Crop residues are the single largest bulk feed material available at the doorsteps of the farmers for feeding livestock, specifically, the ruminants. Antinutritional factors present in the agro-byproducts or unconventional feeds can interfere with the feed utilization, reduce production or affects the health of the animal. Various agro-byproducts, unconventional products...

This ebook is great. It typically will not expense a lot of. You will not sense monotony at at any moment of your own time (that's what catalogs are for about when you question me).

-- **Shaniya Torphy PhD**

A new e-book with a brand new point of view. I really could comprehended everything out of this written e publication. I realized this publication from my dad and i encouraged this publication to understand.
