

Earth Science Demystified

By Williams, Linda

McGraw-Hill Professional, 2004. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: THE ROAD LESS ROCKY TO EARTH SCIENCE MASTERY Now anyone with an interest in earth science can master it -- without formal training, unlimited time, or a genius IQ. In Earth Science Demystified, scientist and writer Linda Williams provides an effective, anxiety-soothing, and painless way to learn or review earth science fundamentals. With "Earth Science Demystified, you master the subject one step at a time--at your own speed. This unique self-teaching guide offers quizzes at the end of each chapter and section to pinpoint weaknesses, and a 100-question final exam to reinforce the knowledge gained from reading the entire book. Here's everything you need to: * Understand the geological history of the Earth * Recognize different types of rock and learn how they were formed * Find out how geologists date the Earth and fossils * Learn what causes earthquakes, volcanoes, tsunamis, tornadoes, and hurricanes * Discover how hot spots, deep ocean ridges, and plate tectonics shape the oceans and land masses * Take a "final exam" and grade it yourself! Simple enough for beginners but substantial enough for advanced students, "Earth Science Demystified...
