 comment: I have researched on nuclear force, my thought is  
 well proved & stimulate others about such question. ,  
 abstract: Abstract :- it is well established that the forces between  
 nucleons are transmitted by meson. The quantitative  
 explanation of nuclear forces in terms of meson theory was  
 extremely tentative & incomplete but this theory supplies a  
 valuable point of view. It is fairly certain now that the nucleons  
 within nuclear matter are in a state made rather different from  
 their free condition by the proximity of other nucleons charge  
 independence of nuclear forces demand the existence of neutral  
 meson as amongst the same type of nucleolus (P-P) or (N-N). this  
 force demand the same spin & orbital angular momentum. The  
 exchange interaction is produced by only a neutral meson. The  
 involving mesons without electric charge, that it gives exchanges  
 forces between proton & Neutron & also therefore maintains  
 charge independence...
